

SCIENCE CAFÉ IN THE  
INTERNATIONAL WORKSHOP ON CLIMATE CHANGE

**The Hungarian Meteorological Service**  
and  
**Copernicus ECMWF**

invites you at our Science Café

**Tuesday June 7th, 18:00 PM to 19:30**

in the headquarters of the  
**Hungarian Meteorological Service**  
**Kitaibel street 1 - 1024 Budapest - Hungary**

**Web page:** <http://ccworkshop.met.hu>

Informal enquiries should be directed to Gabriella Szépszó: [szepszo.g@met.hu](mailto:szepszo.g@met.hu)  
We are looking forward to welcome you soon in Budapest.

**SCIENCE CAFÉ  
WITH POSTER INTRODUCTIONS AND DEMO ABOUT COPERNICUS**

**The effect of climate change on heatwave related excess mortality in Hungary at small area (NUTS4) level, 2021–2050 and 2071–2100**

*János Bobvos*, National Public Health Center, Hungary

**Demo about webpage of the Copernicus Climate Change Service**

*András Horányi* and *Jean-Noël Thépaut* (on behalf of *Éva Remete*),  
European Centre for Medium-Range Weather Forecasts

**Comparison of ERA-20C and ERA-Interim reanalysis datasets**

*István Ihász* (on behalf of *Zita Krisztina Balázs*), Hungarian Meteorological Service

**Impact of climate change on the forest fire nature of Ukraine**

*Svitlana Krakovska* (on behalf of *Liudmyla Malyska*), Ukrainian Hydrometeorological Institute

**Trends in heat-related cardiovascular mortality in urban population of the Czech Republic**

*Aleš Urban*, Institute of Atmospheric Physics, Czech Republic

**Modelling of climate change induced urban climate with SURFEX land surface model**

*Gabriella Zsebeházi*, Hungarian Meteorological Service
